IN THE SPECIFICATION:

(1) Page 1, line 1, please change the title of the invention as follows:

~~SYSTEM BUILDER FOR BUILDING ELECTRONICS SYSTEMS~~ METHOD OF BUILDING AN AUTOMOBILE ENTERTAINMENT SYSTEM

(2) The paragraph from page 1, line 3 to page 1, line 10 has been amended as follows:

This invention relates to a system builder and method for enabling the selection and configuration of electronics system through communication networks. More specifically, this invention relates to a system builder and a method for building an electronics system enabling the selection, configuration and cost estimation of automobile audio, video, and/or navigation systems so as to enable remote system build-up and cost estimation of valid and acceptable configurations of those products.

(3) The paragraph from page 5, line 23 to page 5, line 32 has been amended as follows:

The invention provides a system builder which is an intelligent tool for building an automobile entertainment system such as an audio, video and/or navigation system provided by a supplier (manufacturer, or seller) and a method for building an automobile entertainment system. The system builder of the present invention is not limited to the application of automobile entertainment systems, but can be
